The Stair Stringers which JIMU produce are generally applied in industrials or civil constructions. Also, as standard items, they are available to overseas large construction hardware shops for sale.

Stair Stringer

Features:

- Convenient and easy to install. (cast-in or bolt down)
- Available off-the-shelf in 1 to 17 tread stringer pairs.
- Stair Treads and tread mounting brackets are also available and can be purchased separately. Designed to take a maximum tread width of 1000mm.
- Finish can be hot-dip galvanized and powder coated.

Mono Stringer

Features:

- Modern design to provide aesthetic visual look when combined with balustrades and stair treads.
- Specially engineered brackets for easy installation.
- Available in 2 to 17 tread stringer.
- Finish can be hot-dip galvanized and powder coated.
- Available with selected Timber and Concrete treads etc.

Accessories

JIMU is not only producing standard Stair Stringers or Mono Stringers, but also producing suitable stair treads and other accessories.
